Dear Dr. Becker -
& Lutchme, Melanie, Liz,
Devi, Heather & Sylvia -

How will I ever be able to
thank you for all you have done
for me? My new reconstructed
breasts are beautiful beyond
my wildest dreams. Never
did I believe for one moment
that my breast cancer journey
would turn out so perfectly.

Dr. Becker, you have certainly
made me feel complete and
like a woman again. Actually,
my breasts are so lovely that
if it had just been a question
of cosmetic augmentation and
not a reconstruction necessity,
these are the breasts I would
have hoped for!

Thank you from the bottom of
my heart for your expertise,
creativity, support, compassion,
acceptance of my weird sense
of humor! and for being
you - Dr. Becker, & each
and every one of "the girls".
Thank you for turning a
nightmare into one of the most
positive experiences of my life,
and for making Chuck and
I so very happy & fulfilled!
(Laughing)

Love,

↑
thanks
me!
