Dear Dr. Becker:

I would like to express to you and your caring staff my deepest gratitude. Your kindness and professionalism in handling my breast reconstruction surgeries have made me feel like a whole person again.

Prior to the surgery I had great difficulty shopping for and fitting into clothes. I felt very incomplete as a woman. Since the procedure, my self-esteem has soared. I feel complete again, thanks to you.

You all have made a deep impression on me that I will always treasure and appreciate. God bless you for all you have done to change my life for the better.

Sincerely

Herminia D.
