RE: Marcia

Dear Hilton:

I have not yet had the privilege of seeing Marcia but I have talked to her by phone several times. Her satisfaction with your results, and the satisfaction I have on seeing the picture, would suggest the appropriateness of contacting Playboy. When you go back and look at the pictures of what we were faced with at the time I carried out her surgery, it is absolutely miraculous that you were able to end up without more scarring being visible.

The results are most appropriate to someone of your abilities.

Warm regards,

  
Alfred S. Ketcham, M.D.  
Chief, Division of Oncology  
Professor of Surgery  
The Sylvester Professor of Oncology
