Dear Dr. Becker:

I am writing to tell you how touched I was about your story and work on  
This is truly a lifetime gift.

Being in the healthcare business, too often we only hear the negative stories and not the  
positive stories like your surgery on this young child.

It also shows the public what outstanding work you can do at an outpatient surgical center.

I just wanted to take the time to let you know what an outstanding gift you and the staff of  
the Outpatient Surgical Center have given to this youngster.

Sincerely,

  
Jeffrey C. Faine
